

### Recent Publications

- 1) Advanced Seismic Analysis Methods and their Application to Earthquake Damaged Building Repair and Strengthening Design. Published in the Australia Structural Engineers Conference (ASEC-2014), Paper No. 149. Sky City Auckland, New Zealand, Wednesday 9 July to Friday 11 July 2014
- 2) Structural Integrity Assessment for Large Stockpile Building With/Without Cable Net Strengthening Subjected to Cyclone and Severe Corrosion. Published in the Australia Structural Engineers Conference (ASEC-2014), Poster No. 148. Sky City Auckland, New Zealand, Wednesday 9 July to Friday 11 July 2014
- 3) Co-editor for, Issue: 4 (December 2011) of “International Journal of Computational Methods (IJCM)”
- 4) “Prediction of structural integrity, robustness and service life using advanced finite element methods” presented in the 9th International conference WCCM/APCOM2010, Sydney 19 – 23 July 2010; published in the “International Journal of Computational Methods (IJCM)”, pp787-800 Vol.8.
